#83

You maye have heard or seen stories of which you expect copies. A small stcak of copying has accumulated. I'll get to it soon. HW 2/28/73

More on DT, not to mislead: in her call I didn't question her when there were what are likely fantasies or exaggerations or what I regard as neither likely nor credible. I don't want to seem to be saying that there is nothing she said that can't be questioned. Even allowing for the obvious emption and the mo less obvious justification.
